SUMMARY

Collaborative Computer Science graduate. Eager to secure a job or an internship using my experience in building web applications, developing software projects, and working with AI-powered solutions to create meaningful user experiences.

PROJECTS

NoteGenius–AI-Powered Notes Generator

[Python](#) | [NLP](#) | [WhisperAI](#) | [Firebase](#)

- Developed an AI-powered study assistant that converts YouTube lectures, PDFs, audio, video, and documents into structured notes.
- Integrated NLP, Hugging Face Transformer, and Whisper API to generate notes, quizzes, flashcards, and Q&A with PDF/DOCX export.
- Implemented Firebase-based user authentication and personalized dashboards with accuracy evaluation using WER and ROUGE metrics.

(<https://l1nk.dev/etqz43d>)

Text-to-Image Generator

[MERN Stack](#) | [JWT](#) | [Razorpay](#) | [Cloudinary](#)

- Developed an AI-powered web application that generates images from text prompts.
- Implemented user authentication, credit-based payments (Razorpay), and image management using Cloudinary.
- Built responsive frontend client and connected it to backend server APIs for a seamless user experience.

WORK EXPERIENCE

MERN Stack Intern

[AppSquadz Software Pvt. Ltd](#) 📍 Noida, U.P. ([ggl.link/N3LIONc](#))

📅 June 2025 – July 2025

- Developed web application features using the MERN stack and participated in frontend-backend integration.
- Integrated MongoDB for data storage and implemented responsive user interfaces.
- Implemented and tested application functionalities while identifying and resolving bugs and user experience.
- Utilized Git/GitHub for version control and collaborative development.

UI/UX and Content Creation Intern

[EVOA Technologies Pvt. Ltd.](#)

📅 July 2025 – August 2025 📍 Bareilly, U.P. ([ggl.link/tMEApvs](#))

- Assisted in content creation and digital communication.
- Managed & Designed social media creatives and marketing assets using Canva, Adobe Express, and Photoshop, ensuring consistent visual branding across digital platforms.
- Developed visually engaging pitch decks and business presentations for internal and external stakeholders.
- Collaborated with cross-functional team members to ensure timely delivery of project requirements.

SKILLS

Programming

Java, C

Web Technologies

HTML, CSS

Databases

Firebase, MySQL

Design Tools

Canva, Adobe Express, Photoshop

AI Tools

Google AI Studio, ChatGPT

MS Office

Word, PowerPoint.

EDUCATION

B.Tech.

Computer Science & Engineering

[SRMSCET, Bareilly](#)

[Affiliated to AKTU](#)

📅 September 2022- June 2026

🎓 GPA: 7.2

High School.

[ICSE Board](#)

📅 April 2019

🎓 84.5 %

CERTIFICATIONS

- AI-Powered Graphic Design: Mastering Figma & Emerging Tech --By Udemy (<https://tinyurl.com/4kac4ypf>)
- JPMorgan Chase Software Engineering – Forage Virtual Internship (<http://bit.ly/4vzIgOA>)
- Shortlisted for Agentic AI Hackathon by Google Cloud in Bangalore (<https://bit.ly/4ajr r10>)
- Foundations of User Experience (UX) Design from Google Coursera. (<https://lnkd.in/g3vtsTNw>)
- Cognifyz UI/UX Internship Program Created Moodboard using FIGMA (<https://bit.ly/4eFBSOP>)
- Multiple awards in Designing & Speech competitions in Technical and Cultural events. (<https://bit.ly/4uOj99r>)
